

ΕΙΧΗΜΥΘ/ΙΤΕ

ΣΕΜΙΝΑΡΙΟ

ΟΜΙΛΗΤΗΣ: Prof. George Vlastos
Rush-Presbyterian-St. Luke's Medical Center / USA

ΘΕΜΑ: «Recent advances in Clinical Hemorheology»

ΤΟΠΟΣ: Αίθουσα Σεμιναρίων, ΙΤΕ-ΕΙΧΗΜΥΘ

ΗΜΕΡΟΜΗΝΙΑ: 30 Ιουλίου 1999

ΩΡΑ: 18:00

ΠΕΡΙΛΗΨΗ:

The subject of the seminar is a review of the recent advances of Hemorheology in Medicine. This includes:

1. an analysis of the rheological principles that are of importance in the study of blood flow,
2. a review of the recent hemorheological applications and research in Medicine with a focus on Cardiovascular Medicine.

The goal of the seminar would be to create a bridge between engineers and physicians, emphasizing on the important role of Biorheology and Fluid Mechanics on Medicine. The seminar will be made at a level to be familiar for both engineers and physicians.
